Customer Information on Loss Prevention

Insurance cover can compensate for financial loss arising from damage to your property or injury to your employees

Insurance does not compensate for the inconvenience/hassle that can be caused in the disruption to your business and indeed the effort spent in dealing with the loss. There are a number of measures which can be taken as part of your risk management or your loss prevention programme, to reduce the chances of loss or damage some of which include the following.

Note: In addition to the undernoted, we at Zurich through our Risk Management team can offer advice and guidance on managing risk.

Property Claims

Arson

Each year insurance companies pay out in excess of €13m in claims for fires started deliberately.

Deliberate fire may be associated with vandalism or burglary and can result in:

- Premises being extensively damaged or destroyed
- People being seriously injured or even killed
- Businesses bankrupted.

Buildings can be the subject of deliberate attack by fire both externally and internally. This can be eliminated or reduced by putting into practice certain preventive measures, a number of which are listed hereunder.

- Strengthen doors, window locks, perimeter walls, fencing and gates. Where necessary install intruder and/or smoke alarms.
- Accompany visitors on and off your premises if possible, or at least monitor their movements. Check anyone you don't recognise.
- Keep all combustible materials under lock and key, if possible – at least remove from open yards.
- Timber pallets should be stored in the open in areas well away from buildings or perimeter fences.
- Hazardous goods such as inflammable liquids should be removed and locked up separately at the end of each day.
- Gas cylinders should be locked away in a secure and well ventilated compound.
- Petrol or diesel pumps should be immobilised.
- Draw up a plan to deal with the threat of bombs/incendiary attacks.
- Be vigilant for suspicious objects and notify Garda if anything is found.

The above measures if implemented where appropriate, should help protect your buildings from deliberate fire.

Burglary Prevention

Unfortunately, theft has become part of every day life in many areas. Most thieves are opportunists who commit crimes when they spot an easily entered building. Such opportunities can be removed by fitting and using good quality locks on doors and windows and by installing an approved alarm system.

- All external doors should be fitted with five lever mortise deadlocks and the keys should be removed from the lock.
- All patio doors should be fitted with key operated patio door locks. The keys should be removable. A stop should be fitted in the top of the door frame to prevent the doors from being lifted out of their frame.
- All ground floor windows and other accessible windows, fanlight s and roof lights should be fitted with key operated security locks or stops with removable keys or key operated security bolts with removable keys.

Storm Prevention

To minimise **Damage** from storms we suggest the following:

- Roofs have a limited life span and are subject to wear and tear and deterioration over time.
- Check the roof covering at regular intervals and replace where there are signs of deterioration. Remember, your policy does not cover the maintenance costs involved in repairing or replacing the roof. The policy specifically excludes damage caused by wear and tear and gradual deterioration.
- Ensure your tiles and guttering are secure.
- Check that the gutters and drains are not blocked.
- If a storm is forecast make sure all gates are bolted. Put any garden furniture, lawnmowers or plant pots in a garden shed and lock it.

Water Damage

There are various weather hazards which you cannot avoid but against which you can protect your property

- Lag pipes and water tanks wherever possible.
- Leave the underside of tanks free to ensure rising warmth can reach them.
- Replace washers on dripping taps.

Liability Claims

- Accident register – maintain an accident register to record details of all incidents/claims.
- Document all training for your employees and keep signed records of attendance for all Training course, on Personnel files.
