

Zurich Cyber and Data Protection Insurance: Protecting your data, networks and business from cyber risks

Your organisation relies on technology – your networks, your data, your computers and your mobile devices are all essential to the smooth running of your business. So it's never been more important to protect your organisation from data and privacy risks.

Why Zurich?

Underwriting capability

Our local underwriting team has vast experience in the local and European market of underwriting Cyber risks and providing innovative client focused solutions.

Claims expertise

We have adopted a customer-centric approach to claims and we have a dedicated Financial Lines Claims Hub based in Dublin.

- The team is comprised of qualified solicitors and experienced insurance professionals with specialists in cyber and data protection claims to ensure the appropriate experts are always allocated to the case.

- We look to work on a collaborative basis with customers in order to drive a transparent strategy and ensure the appropriate outcome for both parties.

- The team are also supported by a network of panel lawyers and adjusters who operate globally.

Global strength

Zurich is one of Ireland's most trusted Global insurers, having unrivalled financial strength and stability. This outstanding strength is demonstrated by Standard & Poor's AA- rating*. Additionally Zurich has written over €750m Financial Lines business globally.

*as at November 2019.

Cyber and Data Protection Insurance appetite

We will look at all risks and industries on an individual case by case basis.

We cannot quote for US incorporated business.

DigitalResolve – working together to manage your cyber risks

When it comes to protecting you from data and cyber risks, insurance is only part of the solution. To get your business back on track, it's just as important to gather the right expertise and resources. DigitalResolve is a cover, provided under your Zurich Cyber and Data Protection Insurance, that harnesses and manages the resources you need to recover from a damaging cyber event.

Each expert is carefully selected from a global panel of trusted providers in the following disciplines:

IT forensic experts and consultants

Legal experts in data protection, cyber breaches, fraud and security

PR consultants

Direct mailing companies

Credit monitoring

Forensic accountants

Ransom negotiators

Our solution

Whether you experience a privacy breach, malicious attack or system failure, Zurich Cyber and Data Protection Insurance safeguards your business from the financial and reputational costs arising from a broad range of incidents.

Zurich Cyber and Data Protection Insurance can include the following cover:

- **Privacy breach costs:** covers costs resulting from responding to a breach, such as employing forensic, PR, and legal experts.
- **Security and privacy liability:** covers damages resulting from network security and privacy breaches.
- **Emergency costs:** covers costs incurred before you can reasonably obtain our written consent.
- **Privacy breach business income loss:** covers income lost following a privacy breach event and any mitigation costs.
- **Business income loss:** covers business income loss as a result of an interruption of service.
- **Regulatory proceeding defence costs:** covers defence costs incurred due to regulatory proceedings.
- **Digital asset replacement expenses:** covers costs to restore data that is corrupted or destroyed by a security event.
- **PCI DSS payments:** covers PCI DSS payments resulting from a privacy event.
- **Cyber extortion and reward payments:** covers costs to reimburse you for extortion payments and expenses.
- **Cyberterrorism:** covers against cyberterrorist attacks.
- **Internet media liability:** covers wrongful acts arising from electronic publishing.
